

Product Features

- Stable performance and high reliability
- Short circuit protection, overload protection, over-voltage protection, etc
- Average trouble-free working time of 100,000 hours
- Standard 35mm rail mounting, efficient and fast
- Soft start current. Effectively reduce transient voltage shocks
- Use high temperature electrolytic capacitors to ensure system reliability
- 100% full load aging test
- Built-in EMI filter with minimal ripple and noise

Specifications

Product number	EDR-50-24P
Input power	100~240VAC 50/60Hz
Input Current	Cold start 20A/110V, 40A/220V
Output voltage	24V(rated output voltage $\pm 10\%$ adjustable)
Maximum output current	2.1A
Overload protection	120%~150%, Automatic recovery
Over-voltage protection	30V(Automatic recovery beyond voltage maximum)
Short circuit protection	Automatic protection and recovery when the output is shorted
Working environment	-10~+50° C (100% load), humidity 5%~95%, no condensation
